

BritBiz Education Fund Mission Statement

Our mission is to bring Brits, American Britophiles, and their network of friends and family together to support British-themed and British-owned businesses as they take root, grow, and thrive in the United States, with a special initial focus on new businesses across the Pacific Northwest.

Through community fundraising, shared resources, education and training support, startup planning guidance, and free advertising opportunities through our parent fund manager, Britevents Northwest, we help local business owners build strong foundations, celebrate British culture, and become active, welcoming contributors to the communities they serve.
